Mitchell Takes Helm as Vice Director of SWANA Technical Division

August 26, 2015

PITTSBURGH, PA — Civil & Environmental Consultants, Inc. (CEC) is pleased to announce that Timothy D. Mitchell, P.E., has been appointed to the position of Vice Director of the Landfill Management Technical Division for the Solid Waste Association of North America (SWANA).

Mitchell, a project manager in the firm's Export, Pa., office, began his term Tuesday, August 25, 2015, during the Division meeting at SWANA's annual WASTECON conference held in Orlando, Fla. The six-year term begins with two years in the Vice Director position, followed by two years as Director, and culminating with two years in the Past Director position.

In the Vice Director role, Mitchell will assist the Director and Past Director in addressing current issues related to landfill management. This position will require his interaction with a range of owners, operators, consultants and regulators from across the country.

For more information, please contact Timothy D. Mitchell, P.E., at tmitchell@cecinc.com or Steven D. Menoff, P.E., Senior Vice President and lead of CEC's Solid Waste Industry Consulting Group, at smenoff@cecinc.com.

###

About CEC: Headquartered in Pittsburgh, Civil & Environmental Consultants, Inc. (CEC) provides comprehensive industry-focused consulting services to advance our clients' strategic business objectives. CEC offers innovative design solutions and integrated expertise in the primary practice areas of civil engineering, ecological sciences, environmental engineering and sciences, waste management and water resources. www.cecinc.com

About SWANA: For more than 50 years, the Solid Waste Association of North America (SWANA) has been the leading professional association in the solid waste field. The association serves more than 8,000 members throughout North America, and thousands more with conferences, certifications, publications, and technical training courses. The mission of SWANA is to advance the practice of environmentally and economically sound management of municipal solid waste in North America. www.swana.org
