### **CEC Welcomes a New Watershed Planner**

TOLEDO, OH — August 31, 2017 — Civil & Environmental Consultants, Inc. (CEC) is pleased to welcome an additional watershed planner to the team in Toledo, Ohio. Deanna M. Bobak is a senior consultant in the firm's Water Resources practice.

Bobak combines 14 years of watershed planning, remediation, and restoration experience with successful grant writing experience in her new role at CEC, all while maintaining her position as Project Director of the NURTURES program at the University of Toledo, funded by the National Science Foundation. She recently authored six nonpoint source implementation strategic plans for the Maumee Area of Concern, all of which have been approved by the U.S. EPA.

Bobak's watershed planning expertise includes the identification of critical areas, the development of strategic goals and objectives for critical areas, and the conceptualization and development of priority projects with stakeholders. She received both a B.S. and an M.S. in Geology, as well as an MBA in Leadership, from the University of Toledo.

For more information on CEC's capabilities in watershed planning and in other areas such as agricultural engineering, please contact CEC's Toledo office lead, Thomas R. Covrett, C.P.G., at [tcovrett@cecinc.com](mailto:tcovrett@cecinc.com) or 855-274-2324.

###
