### **CEC ACQUIRES BURNS & MCDONNELL SOURCE TESTING GROUP**

*Acquisition Includes Key Individuals and Mobile Testing Equipment*

ST. LOUIS — June 28, 2018 — Civil & Environmental Consultants, Inc. (CEC) has acquired the source testing group of Kansas City, Missouri-based Burns & McDonnell, including staff and all of the firm's source testing equipment.

The acquisition nearly doubles CEC's existing source testing capabilities and adds a new location, Kansas City, Mo., to the firm's lineup, bringing the total to 24. Of the 11 professionals coming from Burns & McDonnell, five will join CEC's St. Louis office and six will remain in Kansas City. All of the professionals add technical depth and expertise, as well as increased capacity to serve clients nationwide from the firm's key source testing locations in St. Louis; Knoxville, Tenn.; Charlotte, N.C., and now Kansas City.

CEC Vice President and Corporate Director of Source Testing Franklin M. Stevens will lead the expanded source testing group. Stevens has more than 38 years of experience performing and managing projects for source emissions testing, system performance and diagnostic testing, air quality regulatory compliance, and air toxics sampling and analysis. His experience includes sampling for the Mercury and Air Toxics rule (MATs), performance and diagnostic testing for air pollution control devices, process sampling, method development, sampling for information requests (ICR), and engine testing. Stevens has tested and managed testing for coal- and gas-fired power plants; the chemical and pharmaceutical industry; cement kilns; hazardous waste combustion units, which include lightweight aggregate kilns, cement kilns, and incinerators; and the food manufacturing, wood products, pulp and paper, and cosmetics industries.

For information about CEC's source testing services, contact [Frank Stevens](tel:314-203-0972) (314-203-0972) or [Greg Archeski](tel:314-203-0526), regional sales representative (314-203-0526). CEC's St. Louis office is located at 4848 Park 370 Boulevard, Hazelwood, Mo. 63042.

###

About CEC: Headquartered in Pittsburgh, Pennsylvania, Civil & Environmental Consultants, Inc. (CEC) provides innovative design solutions and integrated expertise in the primary practice areas of air quality, civil engineering, ecological sciences, environmental engineering and sciences, planning, survey, waste management, and water resources. CEC ranks #10 on *Engineering News-Record's* 2018 list of the top firms in Clean Air Compliance and #115 on the publication's 2018 list of the Top 500 Design Firms.
